### PROFILE

**Full-Stack developer** with experience in **JavaScript, React and Angular**, focused on efficient solutions. Teamwork, effective communication and experience in **Agile/Scrum methodologies**.

### EXPERIENCE

**DevOps, Frontend Developer - Spain**  
*(Remote) - igrowker.com* 🔗

2025

- Developed and deployed a user-friendly frontend component using **React and Material UI**.
- Managed the deployment and scaling of **microservices** on **GCP** using **Docker containers**, optimizing resource utilization and ensuring high availability.
- Implemented **CI/CD pipelines** with **GitHub Actions** to ensure code quality through automated testing and facilitate continuous delivery to **GCP**.
- I work under the **SCRUM** framework.

**Developer Full Stack,**  
*World Westeros - Spain (Remote)* 🔗

2024 - 2025

- **Visual interface** development with **Angular** and **Bootstrap**.
- **Integration of external APIs** for "Game of Thrones" content.
- **SEO optimization** and animation performance.

**Developer Full Stack,**  
*BTFX - Spain (Remote)* 🔗

2023 - 2024

- Development of a **graphical interface and filter system** for querying competitor data through an **internal API**.
- **Integration of React with a database (SQLAlchemy)** to manage information about competitors and team managers.
